Description :

PDF-ff49a | In December of 1938, a chemist in a German laboratory made a shocking discovery: When placed next to radioactive material, a Uranium atom split in two. That simple discovery launched a scientific race that spanned 3 continents. In Great Britain and the United States, Soviet spies worked their way into the scientific community; in Norway, a commando force slipped behind enemy lines to attack German... *Bomb: The Race to Build--and Steal--the World's Most Dangerous Weapon (Newbery Honor Book)*
